The vote of the German population of Kentneky is estimated at 10,000. This vote has hitherto been given to the Democratic party, but nearly the whole of It will now go to the support of this Fremont ticket. In 1854 the Free German Republicans of this State held a convention in Louisville and adonted as ultra-Free German Republicans of this State held a convention in Louisville and adopted an ultra anti-slavery platform. They have since continued to act with the Democratic party only because they had no opportunity to vote for Freesoil candidates, but now they will in a body leave the Democracy and sustain the Freesoil ticket. This every day makes more apparent the ruth of the declaration that the great mass of American party obtained a great triumph in the

We have called upon Southern men to protect thele own interests by adding the evablishment of the policy recommended by the American party, thus preventing the increase of this source of Abolition strength.

The present position of political parties has proved the justice and propriety of the principles of the American party in regard to an extension of the naturalization laws, and has demonstrated the hopelessness of the Democratic Party in the present content. One of the chief elements of the Democratic party, particularly in the Freesoil States, has been the foreign party but they eagerly adopt its principles. vote, and now nearly the whole of this foreign wote has abandoned the Democracy and is found in the ranks of the Freezoil party supporting Fremont.

REFUBLICANS COMIN OVER TO THE NATIONAL PARTY.—The Pioneer, a Black Republican party.

Found in the ranks of the Freesoil party supporting Fremont.

We carnestly ask the people of the Southern States to look at these facts and see for themaleves that there is not one single ray of look that Mr. Buchanan can obtain a single electoral vote in the North; and mail seriousness we ask such of the Old Line Wings and Old Line Democrats, as have intended to support Mr. Buchanan, to cease their suicidal efforts to divide and distract the South and at once to determine to give the unitrd amport of the South to M.flard Fillmore, who alone can default the election of Fremo t.

We want Southern men and particularly the Conservative Democrats of the South to consider well their position and to deliberate candidly and seriously upon the circumstances by which they are currounded. The Democrative party is everywhere affected by the Fremont movement precisely as it is affected by the Fremont movement precisely as it is affected by the Fremont movement precisely as it is affected by the Fremont movement precisely as it is affected by the Fremont hand the foreign vote is the greatest. The defeas of Mr. Buchanan is a fixed fact.
